

## FAQs

### Why should I submit to Clinical Therapeutics?

For over 20 years, *Clinical Therapeutics* has been the leading journal voice for recent developments in drug therapy and pharmaceutical economics, serving an international audience of scientists and clinicians in a variety of research, academic, and clinical practice settings. As an author, publishing with *Clinical Therapeutics* affords you and your paper these benefits:

- High quality, rapid peer review. All manuscripts are peer reviewed by at least 2 independent researchers for clinical relevance, technical accuracy, methodologic rigor, clarity, and objectivity.
- A professional editorial staff whose goal is to guide you through the submission, review and revision process.
- Rapid publication of your paper, online and in print.
- Indexing by all major biomedical abstracting databases.
- Strong annual and 5-year impact factors
- Access to Elsevier's Science Direct, one of the world's largest health sciences databases, serving over 11 million users.

### How do I submit a manuscript to Clinical Therapeutics?

Visit Editorial Manager <https://www.editorialmanager.com/CLINTHER> and register as an author if you have not already done so; then click on "submit paper" to begin the process.

### What are the specific instructions I must follow to submit a manuscript?

Visit Editorial Manager <https://www.editorialmanager.com/CLINTHER> and click on "[guide for authors](#)" for instructions. Please read carefully and be sure to complete all required fields. Doing so greatly helps to move your paper through the submission phase quickly.

### Is there a cost to submit or to publish a manuscript? What are page charges?

A fee (per printed journal page) is charged for accepted papers to defray distribution costs, thereby allowing for "rapid" publication of your paper online. For costs associated with publishing a manuscript, please visit [http://www.elsevier.com/wps/find/journaldescription.cws\\_home/525050/authorinstructions](http://www.elsevier.com/wps/find/journaldescription.cws_home/525050/authorinstructions) and carefully read the section entitled Manuscript Fees and Page Charges. The ability to pay the fee does not influence decisions regarding the acceptance of a paper, which is solely dependent on the peer-review process.

### What Is Express Track?

Clinical Therapeutics is well known for high quality, rigorous, and rapid peer review. For time sensitive manuscripts, Clinical Therapeutics offers Express Track service. For a separate fee, your paper will receive high quality peer-review, completed in 5 – 10 business days from the date of submission. Visit [http://www.elsevier.com/wps/find/journaldescription.cws\\_home/525050/authorinstructions](http://www.elsevier.com/wps/find/journaldescription.cws_home/525050/authorinstructions)

**How long does it take to have my paper reviewed?**

If you take advantage of Express Track (see previous FAQ), your paper will be reviewed with a first decision within 10 calendar days of acceptance. If you choose the standard track for submission, your paper will most likely be reviewed with a first decision within 21 days.

**Once my paper is accepted, how long before it is published?**

Clinical Therapeutics is one of the journal leaders in rapid publication. Within 20 business days after acceptance, including prompt review of proofs by an author, your paper is published online at [www.clinicaltherapeutics.com](http://www.clinicaltherapeutics.com) as an Article in Press. Once online, your article is available to be cited.

**How is my paper promoted?**

We understand the importance of getting your paper published. Whether your goal is share your findings or to meet regulatory requirements, Clinical Therapeutics offers and implements a comprehensive post-publication strategy to meet your needs, in print, online, and through social media.
